August 5, 2009

Today is the birthday of another Armstrong

Neil Armstrong

who walked on the moon with Buzz Aldrin and was chauffeured or

MC'd

by the oft-forgotten 3rd Apollo 11 astronaut

Michael Collins

who stayed in orbit and was also the creator of the Apollo 11 mission patch

for which he traced an eagle straight from

NAtionAl GeogrAphic

the famous magazine first published in (3 As...3 Aights)

1888

which is the longest Roman numeral to date!

MDCCCLXXXVIII has

13

symbols...which is the same number of letters in

Neil Armstrong!
