(MILES DAVIS)

MILES

is an anagram of

SMILE

Apropos because his dad was a

DENTIST!

The first dental school was in

BALTIMORE

Which is an anagram of

MOLAR BITE

And home to Major League Baseball's

ORIOLES

Which visually transfers to

OREO LESS

Which is a misnomer because OREOs are the MOST purchased cookie in history, having sold over

491

billion cookies since they were introduced in 1912 (the same year the Titanic sank –

next time you're dunking an oreo think sinking instead!)

491 also being

Highway 491

which is the old Devil's Highway - U.S. Route

666

(being the sixth branch of Route 66 that passes near the Four Corners of CO, NM, AZ & UT) renumbered back in 2003 due to sign theft and general stigma of the numberr 666 being

EVIL

which spelled backwards is LIVE and

LIVE-EVIL

Is a 1971 album recording by jazz trumpeter...

MILES DAVIS!
