

the string game

January 2, 2013 - "ISAAC ASIMOV"

Today is the birthday of famed science fiction writer
ISAAC ASIMOV

whose works have been published in all 10 major categories of the
DEWEY DECIMAL SYSTEM

which includes the category ("class") 600 entitled
"TECHNOLOGY"

from the Greek meaning literally the study of "art, skill, craft." Technology, by definition, still
encompasses such indispensable tools as the crowbar and the

WOODEN SPOON

an implement that can also be used as a musical instrument, the playing of which was said to
be enjoyed by former Russian president

BORIS YELTSIN

who broke his femur in 2005 while vacationing on the Italian island of

SARDINIA

the second largest island in the Mediterranean from whence we get the word

"SARDONIC"

(don't ask) which is very nearly a synonym of the word

SARCASTIC

or displaying sarcasm, a trait not unknown to our birthday boy today

ISAAC ASIMOV

who coined this gem in "Foundation"

"It pays to be obvious, especially if you have a reputation for subtlety."

A handwritten signature of Isaac Asimov in cursive script.
